

## CyberData 2-Port PoE Gigabit Switch 011187

## CyberData 2-Port PoE Gigabit Switch 011187

Product Name: CyberData 2-Port PoE Gigabit Switch 011187

Manufacturer: CyberData

Model Number: 011187

### CyberData 2-Port PoE Gigabit Switch 011187

The CyberData 2-Port PoE Gigabit Switch 011187 is designed to expand a single PoE network connection into one or two PoE network ports.

#### CyberData 2-Port PoE Gigabit Switch 011187 Features

- 2-port auto-negotiating (no cross or cable required)
- 10.100.1000 full duplex (PoE-powered)
- Link/Status and connection speed LEDs
- RoHS compliant

#### Pass through PoE power

The CyberData 2-Port PoE Gigabit switch is powered from a single 802.3at or 802.3af network switch and passes that power through to one or two of the downstream switch ports.

In the basic configuration, one of the Gigabit downstream ports can drive a VoIP phone directly with PoE and the other Gigabit port can be connected to a user's PC. No external power supplies would be required.

#### Typical Installation

### CyberData 011187 Technical Specification

#### General

- Ports 3 x RJ45, 1 x USB-B
- Dimensions 3.47" L x 3.60" W x 1.16" H
- Warranty 2 years
- Unit Weight 0.56 lbs.
- Standards IEEE
- Modes 10BASE-T, 100BASE-TX, and 1000BASE-T
- LEDs Link/Status and Connection Speed
- Operating temperature 0 to 70 degrees Celsius
- Part Number 011187

**Price: £137.60**
