Draytek Vigor2830n-Plus Router (Dual-Band)

Product Name: Draytek Vigor2830n-Plus Router (Dual-Band)

Manufacturer: -

Model Number: V2830NP

Draytek Vigor2830n-Plus Router (Dual-Band)

Please Note: The Draytek Vigor2830n-Plus has been discontinued.

The Draytek Vigor2830NP is the latest generation of the flagship ADSL router/firewall range, winner of the PC Pro wireless router award for three years in a row. This latest series includes support for professional features such as VLAN tagging, Gigabit Ethernet and WiFi (ess models). The Vigor 2830NP's secondary WAN interface can be connected to other modems now or later (e.g. a second ADSL, BT Infinity or cable modem etc). Packed with features, the Vigor 2830NP offers truly comprehensive ADSL connetivity and security.Compatible with all variants of ADSL (including ADSLMax, ADSL2+ and Annex M) the Draytek Vigor 2830NP can also be used for cable-modem and leased line applications using its additional gigabit ethernet WAN port. A four port Gigabit switch on the LAN side provides high speed connectivity for your server or other local PCs, for the highest speed local data transfer. Security features include content filtering, web application controls and new object based firewall management system.Robust & Comprehensive FirewallSecurity is always taken seriously with DrayTek routers. The firewall protects against attacks including DoS (Denial of Service) attacks, IP-based attacks and access by unauthorised remote systems. Wireless, Ethernet and VPN are also protected by various protection systems. The latest ('Version 3') DrayTek object-based firewall allows even more setup flexibility than ever, enabling you to create combinations of users, rules and restrictions to suit multi-departmental organisations. The Vigor 2830NP now also allows selective direction firewall rules of LAN to WAN, WAN to LAN or LAN to VPN. In addition, QoS (Quality of Service Assurance) can now be selectively applied to specific users.
