Polycom SoundPoint IP 550 VoIP Phone (IP550)

The Polycom SoundPoint IP550 is a four-line SIP phone that delivers calls of unprecedented richness and clarity and supports a comprehensive range of cutting-edge features. Polycom SoundPoint IP 550 Key Features

آز½ Four lines

Title Polycom HD Voice technology, including support of G.722 wideband codec, Acoustic Clarity Technology 2, and systems design optimized for Polycom HD Voice technology

آذًا Advanced functionality, including shared lines, busy lamp field, presence, and XHTML application

� Backlit 320 x 160-pixel grayscale graphical LCD

าั¿½ Integrated IEEE 802.3af Power over Ethernet (PoE) support

Note: Please refer to the Polycom VoIP Phone Range Detailed Comparison Table for more information.

Unparalleled Sound Quality

The Polycom SoundPoint IP 550 VoIP Phone features Polycom's revolutionary HD Voice technology, which brings life-like richness and clarity to every call. Polycom HD Voice technology incorporates wideband audio for over twice the voice clarity; Polycom's patented Acoustic Clarity Technology for crystal-clear, noise and echo-free sound, plus best-in-class system design for high-fidelity, faithful voice reproduction.

Comprehensive, Cutting-Edge Feature Set

The Polycom SoundPoint IP 550 VoIP Phone delivers advanced features and capabilities, such as shared call / bridged line appearance, busy lamp field (BLF), presence, text messaging, and buddy lists. The Polycom SoundPoint IP 550 VoIP Phone also boasts an integrated XHTML micro-browser that allows users to take advantage of productivity-enhancing Web-based applications..

Efficient Installation and Provisioning

The Polycom SoundPoint IP 550 VoIP Phone is engineered to make installation, configuration, and upgrades as simple and efficient as possible. The phone's built-in IEEE 802.3af PoE circuitry and a dual-port Ethernet switch enable flexible deployment options and savings on cabling expenses. The Polycom SoundPoint IP 550 VoIP Phone supports remote, zero-touch provisioning and upgrades from a variety of servers, including FTP, TFTP, HTTP, or HTTPS. To ensure reliable, uninterrupted performance, the phone supports boot4 and call server redundancy. Broad Interoperability

The IP 550 from Polycom SoundPoint has been tested and certified to deliver comprehensive interoperability and extensive feature support with leading SIP-based call control platforms by BroadSoft, Sylantro, Interactive Intelligence/Vonexus, Digium, and other Polycom Technology and Interoperability Partners. The phone also interoperates with Microsoft Live Communications Server (LCS) 2005 for telephony and presence.
