

## CyberData 2-Port PoE Gigabit Port Mirroring Switch (011258) DISCONTINUED

Product Name: CyberData 2-Port PoE Gigabit Port Mirroring Switch (011258) - DISCONTINUED

Manufacturer: CyberData Model Number: 011258

CyberData 2-Port PoE Gigabit Port Mirroring Switch (011258)

The CyberData 2-Port PoE Mirroring Switch (011258) enables users of a network attached device to split a single 802.3af or 802.3at PoE powered Gigabit Ethernet port into two Gigabit Ethernet ports for diagnostics purposes while still maintaining a PoE connection to the attached device. CyberData 011258 Key Features

� Port Mirroring

� 2-Port auto-negotiating (no crossover cable required)

i¿½ 10.100.1000 full duplex (PoE-powered)

� Link/Status and connection speed LEDs

� RoHS compliant

Engineers, Programmers, and Field Service Personnel can utilize the Port Mirror function to monitor network traffic to and from a device with network monitoring software such as Wireshark.Pass through PoE powerThe CyberData 011258 PoE Gigabit switch is powered from a single 802.3at or 802.3af network switch and passes that power through to one or two of the downstream switch ports.

CyberData 2 Port PoE Mirroring Switch Technical Specifications General

Title Ports 1 PD input port 802.3af or 802.3at2 PSE port 802.3at (limited PD input)

آزن Dimensions 5.31" L x 3.03" W x 1.06" H

� Warranty 2 years

ï¿1/2 Unit Weight 0.56 lbs.

ï¿⅓ Standards IEEE

½ Modes 10BASE-T, 100BASE-TX, and 1000BASE-T

� LEDs Link/Status and Connection Speed

ii  $^{1}$ 2 Operating temperature 0 to 70 degrees Celsius

ï¿1/2 Part Number 011258
