Cyberdata Door Strike Relay Module (011269) - DISCONTINUED

Cyberdata Door Strike Relay Module (011269) - DISCONTINUED

Product Name: Cyberdata Door Strike Relay Module (011269) - DISCONTINUED
Manufacturer: CyberData
Model Number: 011269

Cyberdata Door Strike Relay Module (011269)
The CyberData Door Strike Relay module (011269) eliminates the need for the customer to source a separate relay and makes wiring an electronic door strike easier.
Cyberdata Door Strike Relay Module (011269) Key Features

ï¿½ Direct connection to CyberData Intercom products
ï¿½ 4 wire interface
ï¿½ 12 Amp relay
ï¿½ NO/NC contacts
ï¿½ Opto-isolated sense input
ï¿½ Power is provided from relay voltage
ï¿½ Wall mounting
ï¿½ Cable strain relief
ï¿½ Lock status LED

When connecting a CyberData Intercom to an electronic door lock, the high current side of the door strike requires a separately-wired relay and protection diode.

Cyberdata Door Strike Relay Module (011269) - Technical Specifications
General

ï¿½ Power Input 5V to 60V DC / 9V to 250V AC
ï¿½ Operating Temp -10o C to 50o C (14o F to 122o F)
ï¿½ Maximum distance from Intercom 50 feet
ï¿½ Dimensions 6.000" x 3.570" x 1.575"
ï¿½ Warranty 24 months
ï¿½ Boxed Weight 2.0 lbs.
ï¿½ Part Number 011269
