

Grandstream GXP2130 v2 HD IP Phone (GXP2130-V2)

Product Name: Grandstream GXP2130 v2 HD IP Phone (GXP2130-V2)

Manufacturer: Grandstream

Model Number: GXP2130-V2

Grandstream GXP2130 v2 HD IP Phone (GXP2130-V2)

Please Note: This is the updated Grandstream GXP2130 v2 now featuring Bluetooth connectivity.

The Grandstream GXP2130 v2 is a standard enterprise-grade IP phone that boasts HD audio on speakerphone and handset, 2.8-inch colour LCD screen and 4-way audio conferencing.

Grandstream GXP2130 Key Features

- Supports 3 lines, 3 SIP accounts and 4-way voice conferencing
- 2.8 inch (320x240) colour-screen LCD
- Dual Gigabit ports, integrated PoE
- 8 dual-coloured BLF/speed-dial keys
- HD audio on speakerphone and handset

This handset is ideal for professionals and office workers who require a simple to use IP phone that is still feature rich, with the benefit of Bluetooth, Electronic Hook Switch (EHS) support for Plantronics headsets to allow for flexibility.

Flexible and Powerful Design

The GXP2130 v2 is an ideal high-end IP phone for users managing medium to high call volumes. It features dual colour LCD BLF/speed-dial and line keys, a 2.8-inch colour LCD screen, and 4 XML programmable soft keys, offering a streamlined call experience. With support for 3 lines and SIP accounts, the device allows for efficient call handling, making it a versatile choice for busy professionals.

Advanced Connectivity and Features

Equipped with integrated Bluetooth, HD audio, and dual Gigabit network ports with PoE, the GXP2130 v2 provides users with fast and reliable connections. These features enhance usability by enabling easy syncing with mobile devices and ensuring high-quality voice communications, whether in small businesses or larger enterprises.

Easy Deployment and Security

The GXP2130 v2 includes advanced security encryption technologies such as SRTP and TLS to protect communications. It supports various automated provisioning options, including zero-configuration with Grandstream's UCM series IP PBXs and encrypted XML files, making mass deployment simple and secure for IT administrators.
