Please Note: This product has been discontinued. For an alternative, we recommend the 2N IP Verso RFID card reader.

2N IP Verso RFID card reader 135MHz

The 2N Verso RFID card reader is a 13MHz RFID Card Reader Module featuring a 13MHz RFID Card Reader for use with Proximity Cards and Fobs for non-contact, code-free access.

The Verso 9155033 RFID Card Reader Module can be used either within the same frame as the Verso main Units, individually in its own Frame or with other Additional Function Modules in a multiple-Module Frame.
