2N IP Verso I/O module (9155034)

Product Name: 2N IP Verso I/O module (9155034)
Manufacturer: 2N Telecommunications
Model Number: 9155034

Please Note: All 2N products come with a 3 year warranty as standard however, this can be extended up to 5 years. Customers have the option to extend their warranty by either one or two years. To find out more, please click here or call our sales team on 0330 088 0195.

2N IP Verso I/O module (9155034)
The 2N IP Verso I/O module provides logical inputs and outputs for sensor integration, door control or other devices requiring NO/NC switching.
The Verso 9155034 Logical Input/Output Module can be positioned behind another Additional Function Module and, therefore, does not require its own Module space position.

Price: $97.01
