Please Note: This product has been discontinued. Please see the UniFi Video range.

Please Note: The Ubiquiti UVC NVR 500GB (UVC-NVR) has been upgraded to the Ubiquiti UniFi Video Camera NVR 2TB (UVC-NVR-2TB).

Ubiquiti UniFi Video NVR 2TB (UVC-NVR-2TB)

The Ubiquiti UniFi Video Camera NVR 2TB is a plug-and-play network video recorder designed for seamless integration with the Ubiquiti UniFi Video Camera range. The UVC-NVR-2TB has a 2TB built-in hard drive, which provides approximately 4800 hours at 480p, or 1600 hours at 720p. It is also possible to add an external hard drive using the USB 3.0 ports.

UniFi NVR 2TB Key Features

• Built-in 2TB HDD

• User-Definable Disk Space: Allows the user to keep a set amount of free disk space

• Date-Based Auto Purge: Automatically deletes recordings after a certain number of days

• Easy Access: Via a Web browser on a compatible PC or on tablets and phones with iOS or Android OS

• Plug and Play Installation

• Multi-Site Support

• Intuitive Management Software

As with all the UniFi Video range, the Ubiquiti UniFi Video Camera NVR 2TB comes pre-installed with the intuitive controller UniFi Video Software. The UVC-NVR-2TB also records footage using the H.264 format instead of M-JPEG, resulting in sharper videos with smaller file sizes.
