Algo 8188 Ceiling Speaker

Product Name: Algo 8188 Ceiling Speaker
Manufacturer: Algo
Model Number: Algo-8188

Algo 8188 Ceiling Speaker
The Algo 8188 is a SIP compliant IP ceiling speaker for voice paging, emergency notification, and background music.The speaker may be configured as a third party SIP endpoint compatible with leading premise or hosted UC providers including Avaya, Broadsoft, Cisco, Digium Asterisk, Metaswitch, Mitel, and more.
Algo 8188 Ceiling Speaker Key Features

ï¿½ SIP loud ringer, music, paging speaker
ï¿½ Multicast wide area notification
ï¿½ Wideband G.722 codec support for HD Voice
ï¿½ Superb audio clarity and intelligibility
ï¿½ Configurable through web interface
ï¿½ Supports auto-provisioning / Music capable
ï¿½ Internal memory for uploaded WAV files or recorded messages
ï¿½ Dual SIP extensions for page or notification

The Algo 8188 has an integrated microphone which enables talkback and listens for ambient noise to automatically increase page volume when necessary. This helps to ensure paging is always heard but not unnecessarily loud*.The 8188 ceiling speaker is easy to install and is powered by PoE which eliminates the need for a local power supply. Configuration is possible via a web interface.* Feature not available when playing background music
