

Jablocom Essence GSM Desk Phone

Product Name: Jablocom Essence GSM Desk Phone

Manufacturer: Jablocom

Model Number: GDP-06

Jablocom Essence GSM Desk Phone

The Jablocom Essence is a business desktop phone which uses the mobile network but looks and behaves like a normal office desktop phone. Like other business phones it supports most of the commonly used features including 3 way conference calls plus call hold and transfer.

Jablocom Essence Key Features

- Synchronise contacts among your desktop phone, mobile phone, Outlook and Google account
- Quick dialling with 11 memory keys
- Large memory 1500 contacts, 100 call records, 100 text messages
- Backlit graphical LCD
- Call transfer, conference call, hold and mute function
- No need for lots of wires
- PC management software JabloTool
- Back up battery power
- Wireless mobile technology makes the Essence ideal for shops, hotel receptions or showrooms
- 2 years warranty as standard

The Jablocom Essence is also ideal for the busy executive. It comes with unique cloud services allowing users to access call lists, messages and contacts through the web, synchronise contacts with your other devices and manage groups of phones.
