### Gigaset Pro Maxwell 3 Desktop IP Phone

The Gigaset Pro Maxwell 3 IP Phone is a feature-rich desktop VoIP Phone that includes up to 4 SIP accounts, outstanding user interface on TFT display, Gigabit Ethernet (10/100/1000) with 2-port switch plus much more. Gigaset Pro Maxwell 3 Desktop IP Phone Features

- Outstanding user interface on TFT display
- 5-way navigation key for easy operation
- Up to 4 SIP accounts
- Multiple ringtones, selectable per line (internal, external, group, door)
- Exceptional HD voice and sound
- Professional zero-touch auto-provisioning setup
- Gigabit Ethernet (10/100/1000) with 2-port switch
- Integrated Power over Ethernet
- Internal directory with 100 entries
- Call waiting / Call active indication

The most important feature on the Maxwell 3 is the usability. So that's where we started – by building a no-nonsense product with German quality and a perfect interface. While designing the phone, the concept was with the user's business in the foreground. This inspired engineers to focus on the things that do matter. This brings the idea IP phone with extraordinary HD-audio, crystal clear TFT-display delivering an intuitive business companion to the front.

**Handsfree flexibility** Having your hands free during a call is key in our business life today. Maxwell 3 fulfils this need in many ways. Maxwell 3 supports HD audio in handsfree and headset. **Movable foot and wall mount** Every user needs to customise their phone in a different way. On every location, there are situations with overhead lightning, shortage of space on the desk, longer distance to the phone. Therefore Maxwell 3 supports a movable foot. The foot has three different positions from vertical, to horizontal under a 30-degree angle. Without the foot, Maxwell 3 can be mounted on the wall. **Intuitive operation** The Maxwell 3 is equipped with a large TFT display and navigation key to guide the user to the desired settings. The screen projects the information in high contrast, which helps you to read the screen in a wide angle behind the desk. You will clearly see who's calling. **Connectivity**
