

Product Name: Cisco 7811 IP Phone

Manufacturer: Cisco Systems Model Number: CP-7811

#### Cisco 7811 IP Phone

The Cisco 7811 is an IP phone that is reliable but has a sleek ergonomic design. Features include 1 line, 3.28-inch screen size and easy to use, traditional telephony-like user experience. "Always-on" reliability and secure encrypted communications.

تز½ 1 Line IP Phone

ï¿1/2 Screen Size 3.28"

� Integral switch IEEE 10/100

آزِ½ PoE Class 1

آذِرُ Non-backlit, greyscale, 3.28" 384×106 pixel-based display

� Programmable keys 0

The line keys on each model are fully programmable. You can set up keys to support either line, such as directory numbers, or call features like speed dialling. You can also boost productivity by handling multiple calls for each directory number, using the multi-call per-line appearance feature. Tri-color LEDs on the line keys support this feature and make the phone simpler and easy to use. Fixed function keys on all models give you one-touch access to service, messaging, directory, hold/resume, transfer, and conference features. A full-duplex speakerphone lets you set up clear multi-party conferences for flexible, productive collaboration.

Cisco 7811 - Table 1 lists features and benefits of the Cisco IP Phone 7800 Series Hardware Features

T¿½ Ergonomic design: The phone offers an easy-to-use interface and provides a traditional telephony-like user experience.

ï¿⅓ Graphical display

T¿½ White backlit, greyscale, 3.5" 396×162 pixel-based display on the IP Phone 7821, 7841 and 7861.

� Non-backlit, greyscale, 3.28" 384×106 pixel-based display on the IP Phone

ī¿½ Provide scrollable access to calling features and text-based XML applications.

#### ï¿⅓ Handset

� The handset is a standard wideband-capable audio handset (connects through an RJ-9 port) for the IP Phone7821, 7841 and 7861.

The default handset is a standard narrowband-capable audio handset (connects through an RJ-9 port) for the IPPhone 7811, and wideband on handset is available with purchase of additional wideband handset.

Ti2½ The handset is hearing aid-compatible (HAC) and meets Federal Communications Commission (FCC) loudness requirements for the Americans with Disabilities Act (ADA). You can achieve Section 508 loudness requirements by using industry-standard inline handset amplifiers such as Walker Equipment W-10 or CE-100 amplifiers. The dial pad is also ADA-compliant. Ti2½ The narrowband handset (for the IP Phone 7811) produces a magnetic field that attracts small metallic objects such as pins and staples. To avoid possible injuries do not keep small metallic objects close to the handset.

ï¿⅓ Headset

- $\overline{1}$  $\frac{1}{2}$  $\frac{1}{2}$ The analog headset jack is a standard wideband-capable RJ-9 audio port for the IP Phone 7821
- ï¿1/2 Backlit Indicator
- � The phone supports backlit indicators for the audio path keys (handset, headset and speakerphone), select key, line keys, and message waiting.
- � Headset key is not available on the IP Phone 7811.
- � Volume control
- � A volume-control toggle provides easy decibel-level adjustments of the handset, monitor speaker, and ringer.
- ï¿1/2 Full duplex speakerphone
- � Full-duplex speakerphone allows gives you flexibility in placing and receiving calls. For added security, the audible dual tone multifrequency (DTMF) tones are masked when the speakerphone mode is used.
- ï¿⅓ Bezel
- $\ddot{i}$  The IP Phone 7821, 7841 and 7861 include a default black bezel (replaceable), and an optional silver bezel isalso available separately.
- � The IP Phone 7811 is available with a black bezel
- � Dual-position foot stand
- ī¿½ The display is easy to view and the buttons and keys are easy to use. The two-position foot stand supportsviewing angles of 30 degrees and 45 degrees; you can remove the foot stand for wall mounting, with mountingholes located on the base of the phone. (IP Phone 7821, 7841 and 7861)
- آذِالِدُ Only 1 foot-stand position (45 degrees) is supported on the IP Phone 7811.
- تز1/2 Wall-mountable
- � The phone can be installed on a wall using optional wall-mount kit (available separately).
- � Electronic hook switch
- آذِيًا The hookswitch can be controlled electronically with a third party headset connected to the auxiliary port for the Phone 7821, 7841, and 7861.
- تزرير Keys The phone has the following keys◦ Line keys◦ Soft-keys◦

Two-way navigation and select keys◦ Hold/Resume, Transfer and Conference keys◦ Messaging, Service and Directory keys◦ Standard key pads◦ Volume control toggle key◦ Speakerphone, headset and mute keys (Headset key is not available on the IP Phone 7811)

آزٰ½ Ethernet cables

� The IP Phone 7811, 7821, 7841, and 7861◦ Category 3/5/5e/6 for 10-Mbps cables with 4 pairs◦ Category 5/5e/6 for 100-Mbps cables with 4 pairs

 $\ddot{i}$  The IP Phone 7841◦ Category 5/5e/6 for 1000-Mbps cables with 4 pairs

**Power Features** 

� IEEE PoE class 1

าั¿½ The phone supports IEEE 802.3af PoE (Class 1); power consumption does not exceed 3.84 watts.

� Cisco power cube 3

T¿½ This power cube is used as a standard Cisco IP Phone Power Supply for non-PoE deployments.

� Cisco power injector

The IP Phone 7811, 7821 and 7861 are compatible with Cisco Unified IP Phone Power Injector (CP-PWR-INJ), and 7841 is compatible with Cisco Aironet Power Injector (AIR-PWRINJ5=)

#### تز½ Direct transfer

- ï¿⅓ Do not disturb
- � Extension Mobility (EM)
- าั¿1/2 Forced access codes and client matter codes
- ï¿⅓ Group call pickup
- ï¿⅓ Hold/resume
- ï¿⅓ Immediate divert
- า๊¿½ Intercom (Not available on the IP Phone 7811)
- � Join (Not available on the IP Phone 7811)
- � Message-waiting indicator
- ï¿1/2 Meet me conference
- ï¿⅓ Mobility
- ï¿⅓ Music on hold
- ï¿⅓ Mute
- � Network profiles (automatic)
- ï¿1/2 On- and off-network distinctive ringing
- � Personal directory
- � Privacy
- آزٰ Private Line Automated Ringdown (PLAR)
- ï¿⅓ Redial
- � Ring tone per line appearance
- آز½ Shared line
- ï¿⅓ Silent monitoring and recording
- ï¿⅓ Speed dial
- ï¿⅓ Time and date display
- ï¿⅓ Transfer
- تز½ Voicemail
- ï¿⅓ Whisper coaching

### � Language support

- � Arabic (Arabic Area)
- ï¿⅓ Bulgarian (Bulgaria)
- � Catalan (Spain)
- � Chinese (China)
- � Chinese (Hong Kong)
- � Chinese (Taiwan)
- � Croatian (Croatia)
- � Czech (Czech Republic)
- � Danish (Denmark)
- � Dutch (Netherlands)
- � English (United Kingdom)
- � Estonian (Estonia)
- � French (France)
- آز½ Finnish (Finland)
- � German (Germany)
- ï¿⅓ Greek (Greece)
- ï¿⅓ Hebrew (Israel)
- ï¿1/2 Hungarian (Hungary)
- ï¿⅓ Italian (Italy)
- ï¿1/2 Japanese (Japan)

- � Latvian (Latvia)
- آزٰ Lithuanian (Lithuania)
- � Korean (Korea Republic)
- � Norwegian (Norway)
- � Polish (Poland)
- � Portuguese (Portugal)
- � Portuguese (Brazil)
- � Romanian (Romania)
- � Russian (Russian Federation)
- � Spanish (Columbia)
- ï¿⅓ Spanish (Spain)
- ï¿⅓ Slovak (Slovakia)
- ï¿⅓ Swedish (Sweden)
- ï¿⅓ Serbian (Republic of Serbia)
- � Serbian (Republic of Montenegro)
- � Slovenian (Slovenia)
- آز½ Thai (Thailand)
- � Turkish (Turkey)
- ï¿1/2 Multiple ring tones
- 12.1/2 The phone supports user-adjustable ring tones.
- آز½ Directories
- The phone identifies incoming messages and categorizes them for users on the screen. This makes it fast andeasy to return calls using direct dial-back capability. The corporate directory integrates with the LightweightDirectory Access Protocol (LDAP) standard directory
- � Quality-of-service (QoS) options
- � The phone supports CDP and 802.1Q/p standards, and can be configured with an 801.1Q VLAN headercontaining the VLAN ID overrides configured by the Admin VLAN ID.
- ï¿⅓ Security
- ï¿⅓ Certificates
- ï¿⅓ Image authentication
- � Device authentication
- � File authentication
- � Signaling authentication
- � Media encryption using Secure Real-Time Transfer Protocol (SRTP) using AES-128
- าั¿½ Signaling encryption using Transport Layer Security (TLS) Protocol using AES-128 or AES-256
- � Encrypted configuration files
- ï¿1/2 802.1X authentication
- � Cryptography
- � Configuration options

ī¿½ The user can configure IP address assignment statically or through the DHCP client.
