The CyberData Singlewire InformaCast Talk-Back Speaker 011399 (RAL 9002, Gray White) enables two-way conversations using the Singlewire InformaCast® Talk Back application running on the phone.

CyberData 011399 Key Features

- 1/2 Dual registration for Singlewire and SIP Web-based configuration
- 1/2 Paging prioritization
- 1/2 Web-based firmware upgradeable
- 1/2 Plenum-rated enclosure
- 1/2 Autoprovisioning
- 1/2 High efficiency speaker driver
- 1/2 DTMF-controlled relay
- 1/2 Line-out connection
- 1/2 Network and manual speaker volume control Can drive one external analog speaker for greater coverage
- 1/2 User-uploadable ring and alert tones

The Talk-Back Speaker easily connects into local area networks with a single CAT5/6 cable from your PoE switch. Its small footprint allows the speaker to be mounted almost anywhere with multiple mounting options available.

CyberData Singlewire InformaCast Talk-Back Speaker 011399 (RAL 9002, Gray White) -
