ï¿½ Internal directory with 100 entries
ï¿½ Call waiting / Call active indication

Handsfree flexibility
Having your hands free during a call is key in our business life today. Maxwell Basic fulfils this need in many ways. Maxwell Basic supports HD audio in handsfree and headset.
Loudspeaker audio
Having your hands free during a call is key in our business life today. Maxwell Basic fulfils this need in many ways. Both support loudspeaker audio in handsfree mode and handset.
Movable foot and wall mount
Every user needs to customise their phone in a different way. On every location there are situations with overhead lightning, shortage of space on the desk, longer distance to the phone. Therefore Maxwell Basic supports a movable foot. The foot has three different positions from vertical, to horizontal under a 120-140-degree angle. Without the foot, Maxwell Basic can be mounted on the wall.
Intuitive operation
The Maxwell Basic is equipped with a black and white display and navigation key to guide the user to the desired settings. The screen projects the information in high contrast, which helps you to read the screen in a wide angle behind the desk. You will clearly see who‘s calling.Connectivity
