Manufacturer: -
Model Number: 916019

Please Note: This product has been upgraded. Please see the 2N Access Unit 2.0 Fingerprint Reader (916031).

2N Access Unit Fingerprint Reader (916019)
The 2N Access Unit (916019) is an Independent access unit equipped with fingerprint reader. Thanks to its optical sensor, it provides maximum security, high reliability, and rapid fingerprint reading response. It works on indoor and outdoor installations under any weather conditions.
The fingerprint reader uses optical fingerprint recognition technology. The device has acoustic and light signal indicators located just above the reader module. It can be used in office buildings or residential properties where the use of modern, luxury technology is important, and other access technologies, such as RFID or keypad, are uncommon.
2N Access Unit (916019) Key Features

ï¿½ The most secure method of user identification
ï¿½ Fast recognition of applied finger (Fast matching speed)
ï¿½ Highly effective, luxury unit

2N Access Unit (916019) - Technical Specifications
