Sangoma SS7 Gateway 64 T1/E1 Fixed Transcoding 2U

Product Name: Sangoma SS7 Gateway 64 T1/E1 Fixed Transcoding 2U
Manufacturer: Sangoma
Model Number: SS7G-AP64-E1T1

Sangoma SS7 Gateway 64 T1/E1 Fixed Transcoding 2U
The Sangoma SS7 Gateway 64 T1/E1 Fixed Transcoding 2U is ideal for applications such as connecting a private branch exchange to the legacy telephone network or providing multiple points of presence to a VoIP network. Sangoma SS7G-AP64-E1T1 Features

ï¿½ 64 ports E1/T1 SS7 VoIP Gateway
ï¿½ Telco grade echo cancellation
ï¿½ TDM protocol support: SS7, PRI, MFCR2
ï¿½ VoIP protocols: SIP V2/RFC3261, SIGTRAN M2UA RFC 3331, SCTP RFC 2960, Megaco/H248, H.323 Call Routing
ï¿½ Fully featured webgui for configuration, monitoring and diagnostics

The Sangoma SS7G-AP64-E1T1 provides full call control routing for SS7 traffic without the need for third party media gateway controllers or protocol converters. Full inter-working is supported across all VoIP and TDM protocols simultaneously, allowing this single multi-protocol TDM to VOIP gateway to be deployed interconnecting differing networks. The compact, all-in-one design reduces footprint and eliminates the need to source multiple network components to handle media, signalling and routing. SIGTRAN and MEGACO allows a distributed solution across multiple points of presence where SS7 Interconnect is required. SNMP & Radius allows monitoring and management of NSG via both of these industry standards.   A GUI provides convenient access to most configuration, monitoring and management functions, while a command line interface provides full access to management functions with a minimum of bandwidth consumption.

Price: Â£33,065.90
