

Snom A100D Wideband Binaural Headset

Product Name: Snom A100D Wideband Binaural Headset

Manufacturer: Snom

Model Number: A100D

Snom A100D Wideband Binaural Headset

The Snom A100D is a wired binaural headset designed for maximum comfort and performance. Its lightweight and ergonomic design means it can be worn comfortably all day.

Snom A100D Key Features

- Superior wideband audio due to optimised speaker tuning
- 2 headphones for better sound isolation from the surrounding environment
- Cable on one earphone only
- 300° flexible boom
- Passive noise cancelling microphone
- Quick Release (QR) adapters for different connectors

The wideband technology ensures high-definition sound and crystal-clear communication. In addition the flexible boom and the passive noise cancelling microphone guarantee clear voice transmission. With the various Quick Release (QR) adapters available this headset is perfect for use in multiple scenarios.
