

OpenVox FXS400 Module

Product Name: OpenVox FXS400 Module

Manufacturer: OpenVox

Model Number: FXS400

OpenVox FXS400 Module

The OpenVox FXS400 Quad-FXS Module allows OpenVox Analog A810/A1610/A2410 series cards to terminate 4 analog telephones per module. The FXS400 module passes all the call features that any standard analog telephone line will support. Key Features:

- Easy to upgrade: Simply attach additional FXO-400 modules to the card to upgrade the system.
- RoHS compliant
- Certificates: CE and FCC
- Five year warranty

Price: £145.30
