Gigaset Pro Maxwell 2 Business IP Phone

The Gigaset Pro Maxwell 2 Business IP Phone is a feature-rich desktop VoIP Phone which utilises a lightweight handset that supports HD audio and voice, so you will never miss a single word again. Volume keys also ensure the right audio level, and you can toggle between hands-free and the headset by merely pressing the dedicated button. Gigaset Pro Maxwell 2 Business IP Phone Key Features

- Brilliant high-resolution monochrome display

- 5-way navigation key for easy operation

- 8 Function keys for a/o BLF or speed-dial

- Up to 4 SIP accounts

- Exceptional HD voice and sound

- Internal directory with 100 entries

The Maxwell 2 is a functional desktop-phone for business communication purposes. This, alongside the robust, sleek design, brings the ultimate IP phone with superb HD-audio, monochrome-display, delivering an intuitive business companion to the front. Additional KeysThe Maxwell 2 can be extended with the Maxwell Expansion Module. This module adds 58 function keys to your phone. The keys on the module can be used as Busy Lamp Fields (BLF) and use the multi-colour LEDs. The Maxwell 2 can support up to three Expansion Modules. Hands-Free Flexibility Having your hands free during a call is key in our business life today. Maxwell 2 fulfils this need in many ways. Maxwell 2 supports HD audio in handsfree and headset.

Movable Foot and Wall MountEvery user needs to customise their phone in a different way. On every location there are situations with overhead lightning, shortage of space on the desk, longer distance to the phone. Therefore Maxwell 2 supports a movable foot. The foot has three different positions, with a tilt angle between 120-140 degrees. Without the foot, Maxwell 2 can be mounted on the wall. Intuitive OperationThe Maxwell 2 is equipped with a large monochrome display and navigation key to guide the user to the desired settings. The screen projects the information in high contrast, which helps you to read the screen in a wide angle behind the desk.
