

# **Snom D120 IP Phone**

Product Name: Snom D120 IP Phone Manufacturer: Snom Model Number: D120

#### Snom D120 IP Phone

The Snom D120 is a simple but effective entry-level VoIP solution. Designed for large installations, such as those that can be found in the hotel or healthcare industry, its straightforward design and exceptional audio quality meet all the requirements of an entry level phone. The D120 is a no frills phone without a large display, special function keys or features such as call holding for more than one call etc. and has been designed purely with stability and ease-of-use in mind.

Snom D120 Key Features

i¿½ 2 SIP identities
i¿½ Low power consumption
i¿½ Backlit graphical display
i¿½ 360° degree call/message indicator
i¿½ 4 context sensitive function keys + 5 function keys

The Snom D120, however, does feature a backlit display which is unique within the price segment. It is hearing aid compatible (HAC), is equipped with its own specially adapted firmware, has very low power consumption requirements, can be used via PoE and is compatible with Snom's redirection services.

Snom D120 - Technical Specifications Benefits

ï¿1/2 Graphical Display 132 x 64 pixels with backlight
