

Fanvil HT201 Monaural Wideband Headset

Product Name: Fanvil HT201 Monaural Wideband Headset

Manufacturer: Fanvil Model Number: HT201

Fanvil HT201 Headset, Monaural Wideband

The Fanvil HT201 Headset is an over-the-head style monoural (single ear) model for office workers, SOHO or call centre staff. Coupled with noise cancellation technology and wideband audio, the HT201 Headset delivers clearer conversation and offers a more professional customer experience on every call. The HT201 has noise cancelling microphone technology to block out background noise and sharp breathing sounds, as well as being sturdy and lightweight for all-day comfort.
