### Fanvil EXP200 Colour Screen Expansion Module

The Fanvil EXP200 is a colour-screen Expansion Module that applies to Fanvil IP Phones (X5S, X6). It is designed to expand the functional capability of your SIP phone to a whole new level. The EXP200 consists of 20 editable keys and a 5 inch LCD display. The EXP200 supports the traditional call features on each of its programmable buttons, BLF (busy lamp field, standard or event list), call park/pickup, speed dial, presence, intercom, and conference/ transfer/forward. The EXP200 is the ideal solutions for any receptionist or businesses managing high call volumes. Fanvil EXP200 Key Features

ï¿1/2 5 inch 480x854 colour-screen LCD

าั¿½ 20 physical keys on each page with dual-colour LEDs

� 2 separate page buttons

� Stand with 2 adjustable angles

� Support multiple Expansion Modules in series

#### Intuitive Visualisation

A 5-inch 480x854-pixel colour screen greatly enriches your visual experience. In addition, the colour icons for DSS keys offer you a new operating experience. Its two independent control keys on the bottom are used for fast switching to the corresponding page.

#### High Expandability

The Fanvil X5S and X6 can be fully equipped with up to three EXP200 Colour screen Expansion Modules while adding up to 100 additional buttons. A maximum of five pages of 20 flexible buttons with dual-colour LED are shown on the display and can be programmed up to 60 various features including speed dialling, BLF/BLA, call forward, transfer and more. Thus, it will help you effectively manage high volumes of concurrent calls, effortlessly monitor calls and boost personal productivity.
