Fanvil EXP200 Colour Screen Expansion Module
The Fanvil EXP200 is a colour-screen Expansion Module that applies to Fanvil IP Phones (X5S, X6). It is designed to expand the functional capability of your SIP phone to a whole new level. The EXP200 consists of 20 editable keys and a 5 inch LCD display. The EXP200 supports the traditional call features on each of its programmable buttons, BLF (busy lamp field, standard or event list), call park/pickup, speed dial, presence, intercom, and conference/ transfer/forward. The EXP200 is the ideal solutions for any receptionist or businesses managing high call volumes.
 Fanvil EXP200 Key Features

ï¿½ 5 inch 480x854 colour-screen LCD
ï¿½ 20 physical keys on each page with dual-colour LEDs
ï¿½ 2 separate page buttons
ï¿½ Stand with 2 adjustable angles
ï¿½ Support multiple Expansion Modules in series

 Intuitive Visualisation
A 5-inch 480x854-pixel colour screen greatly enriches your visual experience. In addition, the colour icons for DSS keys offer you a new operating experience. Its two independent control keys on the bottom are used for fast switching to the corresponding page.
High Expandability
The Fanvil X5S and X6 can be fully equipped with up to three EXP200 Colour screen Expansion Modules while adding up to 100 additional buttons. A maximum of five pages of 20 flexible buttons with dual-colour LED are shown on the display and can be programmed up to 60 various features including speed dialling, BLF/BLA, call forward, transfer and more. .Thus, it will help you effectively manage high volumes of concurrent calls, effortlessly monitor calls and boost personal productivity.
