Sangoma s505 IP Phone

The Sangoma s505 IP Phone Designed to work with FreePBX and PBXact, Sangoma IP phones are so smart you can quickly and easily use them right out of the box.

Sangoma s505 Key Features

- 4x SIP Accounts
- 3.5 Inch Full-Colour Display
- PhoneApps Support
- 35 Programmable Soft Keys
- 5-way Conferencing
- Full Duplex Speaker Phone
- Headset & Expansion Module
- Compatible
- Dual Gigabit Ethernet Ports
- Optional 3-year Advanced
- Hardware Replacement Plan

The s505 will automatically locate FreePBX / PBXact as soon as it's plugged into an Internet connection, and become automatically provisioned within seconds! – true Zero Touch Configuration. The s505 features industry standard Power-over-Ethernet (PoE), so no power cable or outlets required. It has a full duplex speakerphone, dual Gigabit Ethernet ports, 5-way conference calling, high definition (HD) voice quality and built-in Virtual Private Network (VPN) capability.

Zero Touch Provisioning

VoIP telephones can be complex to install, and manually configuring many different parameters and hundreds of extensions can take hours. When you buy and install your Sangoma IP phones, the redirection server automatically points the phone to the Sangoma FreePBX / PBXact for configuration.

Endpoint Manager Included

When using a Sangoma phone, EndPoint Manager software inside FreePBX / PBXact is automatically enabled. This lets your users control global settings, program their phone keys, map extensions, upload images, download new firmware, and much more.

Full Integration with PhoneApps

PhoneApps are a bundle of advanced applications (or features), which install directly onto your IP Phone, converting all your complicated features into easy-to-use visual applications, which you control, directly from the phone's display.
