Yealink W53H Additional DECT Handset

The Yealink W53H is the next-generation wireless handset designed for business use with excellent battery life and high compatibility.

Yealink W53H Additional DECT Handset Key Features

- Compact design
- Exceptional handsfree talking
- 1.8" 128x160 TFT color screen with intuitive user interface
- Headset connection via 3.5 mm jack
- Up to 18 hours talk time (in ideal conditions)
- Up to 200 hours standby time (in ideal conditions)
- Elegant keypad with backlight and keypad lock

Combining the benefits of wireless communication with rich business features of Voice-over-IP telephony, it empowers users with convenience of wireless communication that allows users to enjoy conversations in excellent speech quality, and benefit from freedom of movement. The compact and attractive design with 1.8" TFT colour screen underlined by its modern look is what defines this state-of-the-art VoIP wireless telephone.

The W53P systems can be expanded up to a total of 8 cordless handsets by adding the W53H cordless handsets. Yealink DECT technology is based on CAT-iq2.0, which focuses on high quality Audio VoIP (wideband), as well as low bit - rate data applications. It is not compatible with any third-party DECT devices (base station, handset, etc.).
