2N Indoor Touch Screen White (91378365W)

The 2N Indoor Touch Screen constitutes an integrated, professional door communication system. The 2N Indoor Touch has highly intuitive control – by merely looking at the display, you can see who is standing at your door. It’s just as easy to display missed calls, and when you want to rest, all you have to do is set the status to “Do not disturb”. Using the buttons on the touchscreen, you can not only initiate a conversation with your visitor or neighbour, but you can even unlock the door or turn on the lights in the corridor or entry hall.

2N Indoor Touch Screen Key Features

- 7" Touchscreen with energy saving mode
- Multi-coloured LED status indicator
- Reception of a HD picture from the door communicator
- Two-way communication with other units in the network
- Display of missed calls
- Setting “Do not disturb” (“DND”) status
- Powered by PoE or external source
- Simple control and easy configuration

The 2N Indoor Touch multifunctional communicator, with an Android operating system, provides audio and video communication with 2N Helios IP intercoms via SIP 2.0 protocol. It is intended for use in interiors, where it is very simply fitted on the wall in a room. It offers simple and intuitive control using a 7" touchscreen with high definition and energy saving mode. An integrated microphone and speaker for effective communication with visitors and multi-coloured LED status indicator, come as standard.
