

Yealink DECT USB Dongle DD10K

Yealink DECT USB Dongle DD10K

Product Name: Yealink DECT USB Dongle DD10K

Manufacturer: Yealink

Model Number: DD10K

Yealink DECT USB Dongle DD10K

The Yealink DD10K enables T41S/T42S to work concurrently with the Yealink DECT system as a handset after pairing with Yealink W60B DECT IP base station.

Yealink DD10K Key Features

- Supports Yealink SIP- T41S/T42S with FW 66.82.0..35 only

- Reliable Connection

- Ease-of-use

- Plug and Play

- High Transmission Rate

Supported by a powerful transmission rate of 552kbit/s, this solution provides you with a quick and reliable DECT connection without wiring or cabling troubles, and gives you the privilege to enjoy wireless communications in minutes. As a complement for Yealink DECT series, attaching DD10K to your desk phone offers you a new solution by combining the desk phone's features with DECT capabilities. Even more, Yealink DD10K is compliant with the CAT-iq 2.0 standards, and it is easy and safe to deploy, guaranteeing a flexible and optimal user experience.

Yealink DD10K Technical Specifications

General

- DECT Transmission Rate: 552kbit/s

- 2 internal QWL omnidirectional antennas

- Power Consumption: 815mW

- Frequency bands: 1880 – 1900 MHz (Europe), 1920 – 1930 MHz (US)

- DECT Standards: CAT-iq 2.0

- Indoor Range: 20m~50m (The Max distance is 50m)

- Outdoor Range: 300m (In clear view and ideal conditions)

- Interface: USB 2.0

- Dimension: 73mm*27mm*8mm

- Weight: 2g

Price: £11.80
