

Yealink CP960-UVC50 Zoom Rooms Kit

Product Name: Yealink CP960-UVC50 Zoom Rooms Kit

Manufacturer: Yealink

Model Number: CP960-UVC50

Yealink CP960-UVC50 Zoom Rooms Kit

The Yealink CP960-UVC50 is deeply integrated with Zoom Rooms controller, you can adjust the volume and mute/unmute the microphone directly on it. For its video quality, the UVC series camera supports 1080P/60FPS video, thus greatly enhancing the fluency of video conferencing, making the presentation more vivid even in details, and delivering a vivid face-to-face video conference experience.

Yealink CP960-UVC50 Key Features

- Yealink UVC50 USB PTZ camera
- Yealink mini-PC Package (including a cable management box)
- Yealink CP960 Conference Phone

Total Device Package Offer

Yealink delivers a complete Zoom Rooms package containing a full hardware suite (mini-PC, camera, audio devices) as well as the requisite software and license, simplifying the purchasing process and deployment while making the after-sales service experience more convenient than ever.

Simple to Deploy, Easy to Use

Yealink one-cable technology eliminates the need for a traditional USB cable from the television area to the conference table area, greatly simplifying deployment. The Yealink CP960 Conference Phone further declutters the conference area by uniting microphones, speaker and meeting console into a single package. When serving as a meeting console, the five-inch multi-touch screen display allows users to join the meeting, add participants, adjust volume and control the PTZ (Pan, Tilt, Zoom) of the camera, making meeting management a snap.

Premium Audio and Video Meeting Experience

Featuring a built-in three-microphone array, the Yealink CP960 Conference Phone ensures a 360-degree voice pickup range with up to a 20-foot (six-meter) radius. Thanks to Yealink Noise Proof Technology, background noise is minimized so that everyone in the room can be heard clearly. By adding the two CPW90 wireless expansion microphones, the CP960 can provide up to a 40-foot (12-meter) voice pickup radius without any additional wiring. Yealink's UVC optical PTZ camera delivers sharp, smooth and stable video with a deep focus field. The wideangle horizontal field-of-view lens and adjustable camera angle provide a broad view of the conference room.

Manage Your Devices Remotely

Yealink Device Management Platform or cloud service can manage the Yealink CP960-UVC Zoom Rooms Kits, allowing administrators to remotely control devices with ease. The platform supports remote configuration, firmware upgrading, monitoring and diagnosis. Through Windows Update, users can get the latest version of the UVC camera driver and Yealink Plug-in for Zoom Rooms, further enhancing the user's Zoom Rooms experience.
