

Yeastar Single Port E1/T1/J1 VoIP Gateway (TE100)

Product Name: Yeastar Single Port E1/T1/J1 VoIP Gateway (TE100)

Manufacturer: Yeastar Model Number: TE100

Yeastar Single Port E1/T1/J1 VoIP Gateway (TE100)

The Yeastar TE100 offers SMBs cost effective additions to legacy telephone systems to bring the true benefits of VoIP. TE100/200 is a single or dual port VoIP E1/T1/J1 gateway (VoIP to E1/T1/J1, and E1/T1/J1 to VoIP) that supports up to 30 or 60 concurrent calls. It's designed to bridge the gap between E1/T1/J1 and VoIP networks. Integrating TE100/200 into an existing network will allow inexpensive communication via SIP trunking. Also, it could connect VoIP systems with E1/T1/J1 service from legacy carriers.
