

ZyXEL ZyWALL 110 VPN Firewall (no UTM)

Product Name: ZyXEL ZyWALL 110 VPN Firewall (no UTM)

Manufacturer: Zyxel

Model Number: ZYWALL310-GB0101F

ZyXEL ZyWALL 110 VPN Firewall (no UTM)

The ZyXEL ZyWALL 110 delivers reliable, non-stop VPN services with dual-WAN failover and fallback support. With two WAN connections—one primary and one for redundancy—the Zyxel VPN Firewall automatically switches to the backup connection should the primary link fail, and automatically switches back to the primary connection once it is back online.

ZyXEL ZyWALL 110 Key Features

- Robust hybrid VPN (IPSec/ SSL/L2TP over IPSec)
- Facebook WiFi, Intelligence social media authentication
- Auto-provisioned client-to-site IPsec setup with Easy VPN
- More secure VPN connections with SHA-2 cryptographic
- Device HA Pro dedicated heartbeat port ensures smart handover
- Hotspot management for authentication, access control and billing

To support dynamic, mobile business operations in today's BYOD (bring your own device) business environments, the VPN Firewalls offer unlimited business mobility with Layer-2 Tunneling Protocol (L2TP) VPN for mobile devices. The VPN Firewall supports L2TP/IPSec VPN on a wide variety of mobile Internet devices running the iOS, Android and Windows mobile platforms.

Zero Configuration remote access

Virtual private networks provide businesses a secure and convenient way of sharing company resources with partners, customers, or employees on business trips. Yet typical VPN solutions are hard for non-technical users to configure, which greatly reduces their usability and convenience. The Zyxel VPN Firewalls feature Easy VPN to provide auto-provisioned client-to-site IPsec VPN setup. A wizard is available with the Zyxel IPsec VPN client-software that automatically retrieves the VPN configuration file from the remote Zyxel VPN Firewall and completes the IPsec VPN setup in 3 simple steps. Zyxel's Easy VPN lowers administration effort and allows partner, customers, or traveling employees to access company servers, email, or data centers easily and securely.

Best TCO for access expansion

People expect network access regardless of time or location. As a result, hotspots are in demand in an everexpanding assortment of locations. The Zyxel VPN firewalls integrated with Zyxel AP Controller technology enables users from a centralized user interface. In addition, Zyxel Hotspot Management delivers a unified solution for business networks with user-friendly tools like Billing System, Walled Garden, Multiple Authentication, 3rd Party Social Login and User Agreement. With ZyWALL series businesses can now deploy or expand a managed WiFi network with minimal effort.

Simplified management procedure

Managing complex configuration settings can be confusing and time-consuming. Zyxel USG 20-VPN and USG20WVPN provides an "easy mode" setting in the GUI for entry-level and SOHO users. Easy mode provides an iconbased feature set and attractive dashboard to simplify management and monitoring of the device. Application and function settings also have integrated wizards for userfriendly setup. Zyxel USG 20-VPN and USG20W-VPN easy mode helps entry-level users and SOHO users effortlessly take advantage of high-speed and secure networking.
