

Fanvil WF20 USB WiFi Dongle

Product Name: Fanvil WF20 USB WiFi Dongle

Manufacturer: Fanvil

Model Number: WF20

Fanvil WF20 USB WiFi Dongle

The Fanvil WF20 USB WiFi Dongle is a low-power, small form factor device that can be implemented within offices for connecting their IP phones to available wireless networks. Supported by a powerful transmission rate of 150 Mbps, this dynamic plug-and-play style USB device is able to quickly and reliably establish WiFi connectivity so that users can optimally communicate, collaborate, access pertinent documents and resources and more.

Fanvil WF20 USB WiFi Dongle Key Features

- Compatible with Fanvil X5S/X6/X7/X7C/X210/X210i (Only support 2.4GHz/150Mbps)

- For X5S/X6/X210/X210i, upgrade to the version of V1.10.10 or higher

- For X7/X7C, upgrade to the version of V1.0.10 or higher

- WF20 is compliant with the IEEE802.11n, IEEE802.11b/g, and 802.11ac standards, maximising reliability and throughput.

- Ease-of-use

- High Transmission Rate

- Plug and Play

- Lower Power Consumption
