Algo 8028 SIP Doorphone

Product Name: Algo 8028 SIP Doorphone
Manufacturer: Algo
Model Number: Algo-8028

Algo 8028 SIP Doorphone
The Algo 8028 provides hands free intercom capability, entrance security with door unlock control and superior audio performance. It is perfect for secure business entrances, emergency intercom, and residential gates. Visitors press a backlit call button on the two wire Door Station to initiate ring on one or more telephones. Answering the ringing phone enables communication with the visitor and door unlock capability.
