

Grandstream GMC08 Battery Charger for WP820

Product Name: Grandstream GMC08 Battery Charger for WP820

Manufacturer: Grandstream Model Number: GMC08

Grandstream GMC08 Battery Charger for WP820

The Grandstream GMC08 is a battery charging pack for the WP820 Cordless WiFi IP Phone. It features 8 independent slots to fully charge or discharge multiple batteries simultaneously. Grandstream GMC08 Key Features

� 8 independent slots

ï¿⅓ 3 charging capacities

� Reliable performance and effiency

ï¿1/2 Leak protection

For added flexibility, the GMC08 comes with three charging capacities for air shipment, storage capacity control and long endurance. It offers reliable performance and efficiency thanks to built-in overvoltage, over-charge, over-current, and short-circuit management as well as leak protection. Grandstream GMC08 Technical Specification

General

� Charging Battery Type: Lithium Ion battery

� Charging Battery Count: Up to 8 batteries

ī¿½ LED: 8 independent dual color LEDs for charging/discharging status

� Fan: 1 fan for temperature control

T¿½ Other Features: Three capacity levels: Low-capacity (20%-30%) for sea/land/air transport, intermediate-capacity (60%) for extended duration transporation and storage, and high-capicty (100%) charging

 \ddot{i}_{2} Safety:- Auto temperature control with cooling fan for high temperatures- Device shut off under extreme temperatures

� Power & Dower &

� Temperature & Deration: 0-55 & Geg; C- Storage: -10-60 & Geg; C- Humidity: 10-90% (non- condensing)

ï¿⅓ Unit Dimensions: 220mm x 190mm x 54mm

آذِ Net Weight: 466g

ī¿½ Package Content: GMC08 charger, power adapter, quick installation guide

Price: 102.02EUR
