ï¿½ 2N Access Commander Box (91379030)
ï¿½
2N Access Commander - Licence for +25 Users (91379041)

ï¿½ 2N Access Commander - License for +5 devices (91379040)

What's included in the enterprise kit:
2N IP Verso Base Unit with Camera - BlackThe 2N IP Verso with Camera is a modular security intercom that can be used everywhere a specific function and purpose of use is needed. The 2N Verso 9155101C features a camera and can be easily integrated into an existing camera and monitoring system, and thanks to programmable scripts, the whole system can be used as a security component to protect a building.2N IP Verso Touch Display ModuleThe touch display module for the 2N® IP Verso door intercom. This upmarket, four-inch LCD display captivates with its intuitive controls and search function. In addition, it is resistant to water and mechanical

2N Enterprise Kit in Black (2NEntBlack-Kit)

damage to the utmost, and is very easy to read, not only in total darkness, but even in direct sunlight.

2N IP Verso Bluetooth & RFID Reader 125KHZ, Secured 13.56MHZ, NFCThe 2N IP Verso 9155084 combines the RFID technology with a modern approach to access control based on the Bluetooth mobile credentials. This compact module uses multi-frequency RFID reader and reads also secured RFID cards. It also offers a possibility for authentication using a smartphone with installed 2N® Mobile Key app. All you have to do is tap the button in the application or in the Touch mode, you can even leave your phone in your pocket and open the door by simply touching the reader.

2N IP Verso Surface Installation 3 Modules - BlackThe 2N Surface Installation Frame for 3 IP Verso Modules - Black (9155023B) is a 3 Module Surface-mount Frame in Black for use in completing a 2N Helios IP Verso Modular Door Intercom system.

Backplate for 2N Helios IP Verso - 3 ModulesEnables installation on glass or uneven surfaces.

2N IP/LTE Verso Security BundleThe 2N discount accessory bundle is for use with the 2N® IP Verso and 2N® LTE Verso intercoms. It features a combination of 2N accessories to increase security at entrance doors to the very highest level.

2N Helios IP Gold LicenceSoftware license key upgrade.

2N Indoor Touch Screen 2.0 - BlackThe 2N Indoor Touch 2.0 (91378375) answering unit guarantees reliable video door communication. Featuring Android OS, powerful hardware and a simple user interface, the 2N Indoor Touch 2.0 is easy to integrate the with third-party applications such as home automation systems that can be comfortably operated on the 7“ touch screen made of tempered glass.

2N Indoor Touch Desk Stand BlackA practical stand for the answering unit 2N® Indoor Touch/2N® Indoor Touch 2.0, so that it’s always within easy reach. The communicator can be easily fixed to the stand with the aid of two screws. You can put it anywhere, e.g. a reception desk, a table or on a shelf.

2N Access Unit 2.0 Bluetooth and RFID SecuredThe 2N Access Unit 2.0 Bluetooth and RFID is based purely on IP technology. It combines the functions of a traditional controller with the functions of end access device. The unit is available in versions with keypad, RFID card reader, fingerprint reader or Bluetooth. Its characteristic design is striking, also being attractive thanks to simple installation and configuration. Naturally, it can also be connected to 2N IP intercoms, gaining you a comprehensive access control system solution which you can manage easily via 2N Access Commander.

2N Helios IP Verso Surface Installation 1 Module - BlackThe 2N Surface Installation Frame for 1 Helios IP Verso Module - Black is a Single-Module Surface-mount Frame in Black for use in completing a 2N Helios IP Verso Modular Door Intercom system.2N Access Commander BoxThe 2N Access Commander Box (91379030) is an ultra compact, small and powerful computer with pre-installed 2N® Access Commander – software designed for access control configuration and 2N devices management. It is a plug and play solution which requires only a power supply and an Ethernet cable to be connected to the computer. It is recommended to place this computer to the secure area and it has to be up and running all the time for the proper and full functionality (it is an access control server monitoring all devices and collecting all access logs).2N Access Commander - Licence for +25 Users2N® Access Commander is free to use software for configuration of one 2N® IP intercom or 2N® Access Unit and for one user who is tracked in the Attendance for unlimited time. For configuration of multiple devices or for attendance tracking of more employees a license is required.2N Access Commander - Licence for +5 Users2N® Access Commander is free to use software for configuration of one 2N® IP intercom or 2N® Access Unit and for one user who is tracked in the Attendance for unlimited time. For configuration of multiple devices or for attendance tracking of more employees a license is required.

Technical Specifications

2N IP Verso Base Unit with Camera - Black - key features

2N Enterprise Kit in Black (2NEntBlack-Kit)

ï¿½ IP (Internet Protocol) connected Door Entry System
ï¿½ 2N Verso Modular Intercom Device allows flexibility of specification
ï¿½ SIP communication protocol
ï¿½ Programmable scripts for actions and reactions
ï¿½ Integrates within a LAN, WAN, Web Ethernet network system
ï¿½ Integration with third-party CCTV systems with ONVIF support
ï¿½ Power over Ethernet (PoE) (or 12v power supply)
ï¿½ Next Generation html5 web server configuration
ï¿½ iPad, iPhone, Smart Phone, Tablet audio & video support
ï¿½ Web Interface Administration / Control of all 2N Helios IP devices from one location
ï¿½ Stylish, discreet design; robust materials and construction
ï¿½ IP54 protection rating
