

Grandstream GUV3005 HD USB Headset with Busy-light

Product Name: Grandstream GUV3005 HD USB Headset with Busy-light

Manufacturer: Grandstream

Model Number: GUV3005

Grandstream GUV3005 HD USB Headset with Noise Cancelling Mic and Busy-Light

The Grandstream GUV3005 is a USB powered HD headset with a noise cancellation microphone to minimise background noise and provide crisp HD audio. It pairs with VoIP phones, laptops and computers to offer high-quality sound. The GUV3005 also features a busy-light to indicate when a call is in progress. This headset is ideal for remote workers and busy environments.

Grandstream GUV3000 Key Features

- HD audio for crystal clear and easy communication

- USB compatibility

- Noise cancellation technology to minimise background noise

- Adjustable headband, in-line controls and left or right wearing style

- Busy-Light to indicate a call in progress

The GUV3005 provides all day comfort with adjustable headbands and soft ear cushions. Audio is easily adjusted using the in-line controls. By offering crystal-clear HD audio, comfortable use and wide compatibility, the GUV series is ideal for remote workers, call centres, receptionists, sales teams and more.

Grandstream GUV3000 Technical Specifications

General

- Connection type: USB2.0, USB-A

- Wearing style: Adjustable headband

Speaker

- Speaker Diameter: 27mm

- Impedance: 32(\pm 15%) Ω

- Sensitivity 94dB: (at 1kHz 1mW)

- Frequency Response: 20Hz~20kHz

- Distortion Max: 3% & 1kHz

- Default Input Power 10mW

- Maximum Input Power 20mW

- L/R Volume Level Difference Average \leq 3dB (at 1kHz 1mW)

Microphone

- Dimension: Φ 4.0*2.2 mm

- Output Impedance: \leq 2.2 k Ω

- Sensitivity: -44 \pm 3dB f=1kHz, Pin=1 Pa

- SNR \geq 55dB f=1kHz, Pin=1Pa A-Weighted Curve

- Frequency Response: 100Hz~10kHz

- Directivity: Cardioid

- Microphone Boom Arm Rotation: 235 \pm 730;

Additional Features

- Busy light: Integrated

- Application Compatibility: Support popular communication applications (such as Zoom, Teams, Slack, WebEx, IPVideoTalk, Grandstream Wave, Counterpath, 3CX soft phones) and IP phone devices
