

## Grandstream GUV3005 HD USB Headset with Busy-light

Product Name: Grandstream GUV3005 HD USB Headset with Busy-light

Manufacturer: Grandstream

Model Number: GUV3005

Grandstream GUV3005 HD USB Headset with Noise Cancelling Mic and Busy-Light

The Grandstream GUV3005 is a USB powered HD headset with a noise cancellation microphone to minimise background noise and provide crisp HD audio. It pairs with VoIP phones, laptops and computers to offer high-quality sound. The GUV3005 also features a busy-light to indicate when a call is in progress. This headset is ideal for remote workers and busy environments.

Grandstream GUV3000 Key Features

- ½ HD audio for crystal clear and easy communication
- ½ USB compatibility
- ½ Noise cancellation technology to minimise background noise
- ½ Adjustable headband, in-line controls and left or right wearing style
- ½ Busy-Light to indicate a call in progress

The GUV3005 provides all day comfort with adjustable headbands and soft ear cushions. Audio is easily adjusted using the in-line controls. By offering crystal-clear HD audio, comfortable use and wide compatibility, the GUV series is ideal for remote workers, call centres, receptionists, sales teams and more.
