AudioCodes RX10 Portable Speakerphone

The AudioCodes RX10 is a versatile device that delivers high voice quality simply regardless of location. Developed in collaboration with Jabra, the RX10 Portable Speakerphone can be easily connected to a laptop or other mobile device to enable clear conference calls on-site or on-the-go.

AudioCodes RX10 Key Features

- Exceptional audio quality
- Range of 2 meters/6.5 feet
- Easy to install and operate
- Fully integrated with Device Manager for centralised management and monitoring
- Perfect for impromptu meetings
- Integrates with leading UC platforms

As part of AudioCodes Room Experience (RX) Suite, the RX10 Portable Speakerphone ensures exceptionally high voice quality delivered over leading UC solutions. Combined with the AudioCodes Meeting Insights solution, it ensures all meetings can deliver continuous productivity, even after the meeting has ended. Integration with the AudioCodes One Voice Operations Center Device Manager means that the device can be fully controlled and managed by internal IT teams.
