Yealink ZVC640 Zoom Rooms Kit

The Yealink ZVC640 is a bundle video solution designed for immersive Zoom meetings in medium and large rooms. With the UVC84 camera, the conference phone CP960 integrating with microphones, speakers and meeting console, the ZVC640 Zoom Rooms system delivers users the premium audio and video performance and native Zoom Rooms experience.

Yealink ZVC640 Key Features

ï¿½ 4K Performance
ï¿½ 12x optical zoom
ï¿½ Premium Audio Experience
ï¿½ Simplified Deployment
ï¿½ One-cable Technology
ï¿½ Remote Management

Total Device Package Offer

Yealink delivers a complete Zoom Rooms package containing a full hardware suite (MCore, camera, audio devices) as well as the requisite software and license, simplifying the purchasing process and deployment while making the after-sales service experience more convenient than ever.

Simple to Deploy, Easy to Use

Yealink one-cable technology eliminates the need for a traditional USB cable from the television area to the conference table area, greatly simplifying deployment. The Yealink CP960 Conference Phone further declutters the conference area by uniting microphones, speaker and meeting console into a single package. When serving as a meeting console, the five-inch multi-touch screen display allows users to join the meeting, add participants, adjust volume and control the PTZ (Pan, Tilt, Zoom) of the camera, making meeting management a snap.

Premium Audio and Video Meeting Experience

Featuring a built-in three-microphone array, the Yealink CP960 Conference Phone ensures a 360-degree voice pickup range with up to a 20-foot (six-meter) radius. Thanks to Yealink Noise Proof Technology, background noise is minimized so that everyone in the room can be heard clearly. By adding the two CPW90 wireless expansion microphones, the CP960 can provide up to a 40-foot (12-meter) voice pickup radius without any additional wiring. Yealink UVC84 optical PTZ camera supports 4K video which can deliver sharp, smooth and stable video with a deep focus field. The wide-angle horizontal field-of-view lens and adjustable camera angle provide a broad view of the conference room. The auto-framing and camera presets provide users with a smarter and simpler camera control experience.

Manage Your Devices Remotely

Yealink Device Management Platform or cloud service can manage the Yealink ZVC640 Zoom Rooms Kits, allowing administrators to remotely control devices with ease. The platform supports remote configuration, firmware upgrading, monitoring and diagnosis. Through Windows Update, users can get the latest version of the UVC camera driver and Yealink Plug-in for Zoom Rooms, further enhancing the user's Zoom Rooms experience.
