Model Number: 9157101

2N IP Style Video Intercom

The 2N IP Style Video Intercom comes with a 10" touch display and is designed to turn heads at any high-end residential or office entrance. The 2N IP Style is supercharged with the AXIS ARTPEC-7 processor, full-HD camera and WaveKey technology.

2N IP Style Key Features

- 10" Premium 10" Display
- Full HD Streams with 5MP Chip
- Patented tilt-out system
- IP65 and IK08 Durability

Enhance your projects with an intercom which can handle multiple simultaneous full HD streams and has a 5 MP chip. It supports WDR and provides colour image, even in low light conditions. The extreme brightness of the display guarantees excellent readability, even in direct sunlight. You will also captivate users with the immediate response and smooth animations. Thanks to a patented tilt-out system, you have both hands free to work with the cables. Using WaveKey technology, 2N have successfully opened the door 15,000 times using 100 different phones. In 97% of cases, the door was opened in less than 1 second. Don't be fooled by the fully glazed surface. The 2N IP Style can easily resist heavy rain, a dusty environment, and even attacks by vandals. Select from 2 different ways of displaying the intercom's user interface. You'll satisfy the specifics of apartment or office buildings and tweak the user experience to perfection.
