Fanvil V62 Essential Business Phone

The Fanviil V62 is more than just a functional phone; it's a delicate work of art that offers businesses a smart and seamless business communication experience at a lower cost. The V62 is a superb combination of stylish appearance outside and excellent power inside as the essential business phone with a graphical Dot-matrix screen and illumination, necessary VoIP features, and other additional functions.
Fanvil V62 Key Features

ï¿½ 2.7” graphical Dot-matrix screen with backlight
ï¿½ Supports audio codec G.722 and Opus, HD audio on speakerphone and handset
ï¿½ Supports 6-party local conference
ï¿½ Available to link with security products, can be easily customized into various security solutions for reducing investment
ï¿½ Dual Gigabit ports, integrated PoE
ï¿½ Two installation methods of desktop stand and wall mountable
ï¿½ Up to 15 DSS keys, every DSS key can be set as Line/BLF/ Speed Dial Key

The Fanvil V62 is a reliable IP phone with a 2.7-inch graphical dot-matrix screen with backlighting, delivering HD audio on both the speakerphone and handset with support for G.722 and Opus codecs. It supports 6-party local conferencing and can integrate with security products for customisable security solutions. Equipped with dual Gigabit ports and integrated PoE, the V62 offers up to 15 DSS keys, configurable as Line, BLF, or Speed Dial keys. It provides flexible installation options, either as a desktop stand or wall-mounted, making it ideal for efficient business communication setups.
User Friendly UI
The 2.7 Inch graphical Dot-matrix screen with backlight and intuitive UI design makes navigation simple and easy to learn.
Crystal Clear Audio
The V65 supports wideband audio codec Opus and G.722, coupled with noise reduction technologies and full-duplex AEC, bring an immersive listening experience.
6-Party Conferencing
The V65 supports 6-way audio conference, and the conference management mode enables you to manage the conference efficiently
Integrate USB 2.0
USB 2.0 interface can connect to a WiFi dongle and bluetooth adapter, providing high scalability and improved work efficiency.
