### CyberData SIP Hand Wave Indoor Intercom (011530)

The SIP Hand Wave Indoor Intercom is a gesture-activated device that provides secure access control and touch-free two-way communication for your VoIP phone system. This device is ideal for high-traffic areas such as medical facilities, commercial/residential facilities, schools and universities, retail businesses, warehouses, and manufacturing plants because it is activated by a hand wave.

CyberData's SIP-enabled VoIP products are compatible with the vast majority of VoIP systems including SBCs, Gateways and phone systems both on-premise or cloud based.

Key Features include:

- Full duplex audio with enhanced acoustic echo cancelling
- Simultaneous SIP and multicast
- Supports user-uploadable ring and alert tones
- Loud/Night Ringer function - second SIP extension
- Can receive pages directly from Poly phones as well as other devices that send standard multicast
- Touchless activation reduces spread of infectious diseases
- Distance for hand wave activation can be set for 2, 4, or 6 inches
- DTMF-controlled dry relay contact for auxiliary control
- Door closure and tamper alert signal
- Network volume control
- Supports Auxiliary Strobe Kit for visual notification
- Easy-to-clean stainless steel faceplate
- Flush mounting offers a clean streamlined installation
- TLS 1.2 and SRTP enhanced security for IP endpoints in a local or cloud-based environment
- Autoprovisioning via HTTP, HTTPS, or TFTP
- HTTPS or HTTP web based configuration. HTTPS is enabled by default.
- Configurable event generation for device health and status monitoring
- 802.11q VLAN tagging
- Web-based upgradeable firmware
- Support for Cisco SRST resiliency

The CyberData SIP Hand Wave Intercom reduces risk of infections and diseases in any work environment with the "no touch" feature. With a simple wave of a hand it prevents contact between person to person. You can adjust the sensor distance to 2, 4 or 6 inches.

This SIP Door Intercom is versatile for any deployment. Easily install in laboratories, medical facilities, residential buildings, retail establishments, schools, universities, warehouses and more.
