Yealink Video Conferencing Microphone Array (VCM34)
The Yealink VCM34 is a Video Conferencing Microphone Array that may be used to provide audio input for Yealink Video Conferencing Systems and Yealink UVC PTZ Cameras. The VCM34 combines hardware and software to increase audio quality, using Yealink Noise Proof Technology.
The VCM34 has a 20ft (6m) and 360° Voice Pickup Range thanks to its built-in 3 Microphone Array and outstanding Audio Technology, making it a perfect choice for any Conference Room that requires the best Audio experience.
Up to four VCM34 units can be cascaded in one system, allowing the VCM34 to capture audio over a considerable distance, giving the impression that everyone is seated across the table from one another.
