JPL Vision Access - Windows Hello Compatible Webcam (JPL-VISION-ACCESS)

The JPL Vision Access is a compact 1080p USB Webcam featuring Windows Hello compatible facial recognition and a built-in privacy lens cover.

JPL Vision Access Key Features

- Universal 1080p HD 30fps webcam
- Ideal for use where office security is essential
- Ease of access to your device with Windows Hello facial recognition
- Plug & play solution - No software or downloads needed
- 96° Field of view
- Omnidirectional microphone
- Built-in privacy lens cover
- Built-in camera in-use LED indicator
- USB Type-A and USB Type-C connectivity included
- Multi-angled desk mount / monitor mount (as well as tripod fixing screw option on the base) giving full 360° camera rotation and 90° camera forward tilt
- 2 year standard repair or replacement warranty

Features

The JPL Vision Access also packs in all the features you need. There's the apparent improvement in video quality that you'd expect, but there's also an omnidirectional microphone and "camera in-use" LED indicators. The Vision Access also comes with an integrated privacy lens cover, giving you peace of mind that you are hidden from view whilst the lens cover is pulled over the lens.

Positioning

The JPL Vision Access also features a 360° camera rotation, 90° camera tilt and a universal bracket with grippy feet, allowing you to place it on top of any laptop or computer monitor. One of a range of USB webcams and video conferencing solutions offered by JPL, the Vision Access is a lightweight USB web camera with a 96° field of view, allowing it to be used in an office or on the go.

Compatibility

Plug and Play is also a great feature of the Vision Access, with both USB-A and USB-C connection options, allowing you to plug in and start working immediately with many of the common video conferencing platforms including Microsoft Teams, Zoom, Cisco Webex and many more.
