Please Note: This product does not come with Floor Stand. Please see here to purchase separately.

Yealink MeetingBoard 65 Collaboration Display For Microsoft Teams

Introducing the Yealink MeetingBoard: the ultimate next-generation collaboration solution. This sleek 65" professional display combines intelligent features, such as a scalable Android OPS and a native Microsoft Teams app, with versatile mounting options. It bridges the gap between interactive collaboration and video conferencing, satisfying all content sharing and virtual communication needs. With a wide range of connection ports and wireless capabilities, this all-in-one display is perfect for large school and corporate spaces, allowing seamless integration of additional audio and video modules.

Yealink MeetingBoard 65 Key Features

- 65-inch LED touch screen
- Runs on Android 10
- Built-in 4K camera with electric privacy shutter
- Enhanced AI Noise Cancellation
- Dual-screen supported
- WiFi 6 wireless presentation
- Upgradeable Android OPS module
- Microsoft Teams certified, with support for Teams Whiteboard
- Wall mounted (supports optional floor stand, sold separately)

Smart Collaboration Whiteboard

This MeetingBoard is designed for smart collaboration and features a native Teams experience. It is equipped with Android 10 and offers a 65-inch LED touch screen with a rich 4K visual presentation and easy menu navigation through the Teams-tailored operation interface. The touchscreen supports four-level input smart digital ink recognition, allowing you to write and erase with a pen tip, navigate with your fingers, and it also supports palm rejection. Additionally, it enables multi-inking simultaneously, facilitating collaboration with multiple people on one board. The Microsoft Teams Whiteboard, a cloud application, allows seamless joining and collaboration from anywhere.

Professional Conferencing AI Video Experience

With its built-in 4K camera and professional-grade image sensor, this MeetingBoard delivers an exceptional FHD video conferencing experience. The camera ensures sharpness, accurate color rendition, and effective noise handling. Alongside real-time Auto Framing and Speaker Tracking, the MeetingBoard offers various AI-based camera tracking features such as Picture in Picture, Presenter Tracking, and People Feed, creating an immersive conference environment.

Premium Full-Duplex Conferencing Experience

Featuring built-in 16 MEMS beamforming microphone arrays, the MeetingBoard provides superior noise proofing and reverberation suppression. The advanced beamforming algorithm, combined with enhanced AI technology for acoustic echo cancellation and reverberation suppression, enables high-quality full-duplex calls with precise voice pickup, even in challenging acoustic

environments. Additionally, the 4+2 stereo microphones offer spatial stereo video, enhancing the sense of participants sitting across the table from each other.

One Stop Solution for All Rooms

By pairing the MeetingBoard with Yealink Room Panel, Room Sensor, and Touch Console (sold separately), you can easily create a complete intelligent meeting space. Furthermore, the MeetingBoard allows seamless switching between Windows and Android platforms or BYOD mode with just one tap, providing limitless usage possibilities. For medium or large meeting spaces, the MeetingBoard can be expanded by connecting a detachable optical PTZ camera, wireless expansion microphones, and cascading dual-touch displays.
