Manufacturer: Logitech

Model Number: 960-001076

Logitech C925e Business HD Webcam (960-001076)

The Logitech C925e is an HD 1080p webcam that delivers professional video and sound. Certified for business, affordably priced and engineered for all-day use, C925e provides H.264 with Scalable Video Coding (SVC) and UVC 1.1 encoding to minimize dependence on computer and network resources, producing a consistently reliable video-conferencing experience even when bandwidth is limited.

Show your professional style on every video call. C925e provides HD 1080p/30 fps and HD autofocus for true-to-life clarity in a fixed 78° field of view that's just right for individuals. Plus, RightLight 2 technology works in the background to constantly and intelligently adjust visual quality.

The C925e features dual integrated omnidirectional mics optimised to clearly capture audio up to one meter away so conversations always sound natural and clear.
