

Logitech Wall Mount For Video Bars (952-000044)

Product Name: Logitech Wall Mount For Video Bars (952-000044)

Manufacturer: Logitech

Model Number: 952-000044

Logitech Wall Mount For Video Bars (952-000044)

Attach Rally Bar or Rally Bar Mini to a wall or use the 200x50mm VESA mounting points to attach to trolleys.

Logitech Wall Mount Key Features

- Clean cabling
- Perfectly parallel
- Tilt-down adapter ensures the perfect angle

See Eye to Eye

Position Rally Bar and Rally Bar Mini below the display for natural eye contact. Mounting directly to the wall saves space and lends a finished appearance to any room.

The Right Angle

In rooms where above-display mounting makes sense, the 10° tilt down adapter delivers a room-wide view with right angle for video meetings.

Vesa Industry Standard

With industry-standard VESA mounting pattern (200 x 50mm), Wall Mount is equally at home on mobile carts for ultimate versatility.

Thoughtful Cable Management

Whether mounted above the display or below, thoughtful routing keeps cables securely connected and out of sight.

Perfectly Parallel

Engineered for perfectionists. The built-in angle adjustment lets you precisely align the level of your video bar with the display.

Floats Below Display

Save space and clear the credenza by floating Rally Bar, Rally Bar Mini, or Rally camera below the display.
